BNVG31 Binocular Night Vision

BNVG-31 SET - No. 903666

Image intensifier tube

Phosphor: P45 (White)
FOM min. 2000
SNR min. 28
E.B.I. max. 0,25µlx

The BNVG31 Binocular Night Vision is purpose-built to enhance nighttime operational effectiveness and heighten situational awareness for operators. Engineered with a dual-tube design, this compact, lightweight goggle is optimized for seamless performance in the most challenging low-light conditions. The BNVG31's dual-tube system provides superior image resolution, enabling unparalleled capabilities for target detection, recognition, and identification across significant distances. Its standout feature is its independent dual-tube housings, offering the flexibility to operate in either binocular or monocular configurations as per mission requirements. In the binocular configuration, the two tubes work together to provide enhanced depth perception, simplifying terrain navigation, obstacle maneuvering, and operation of controls or devices. The monocular configuration, on the other hand, provides the versatility to adapt swiftly to fluctuating lighting conditions often encountered in tactical environments. The BNVG31's power versatility further solidifies its robust design. It can operate efficiently using an onboard AA battery or an external battery pack for prolonged usage scenarios. Notably, this external battery pack incorporates dual infrared strobe lights - a critical feature for ground personnel identification.

NOTE:

Mounting is included in the scope of delivery of the BNVG-31

Battery Pack - No. 904558

The USBP (Universal Strobe Battery Pack) is a robust remote power supply designed to work with the BNVG31 housing, as well as other housings that are compatible with Fisher ports. It is constructed of injection molded polymer and stores Four AA batteries as the power supply.

- Made of durable injection molded polymer
- Holds 4x AA batteries as power supply
- Battery compartment sealed for use in all weather conditions
- Built in IR strobe
- Power cable for included

DTNVS-14-LWC40 Binocular Night Vision

DTNVS-14-LWC40 - No. 904136

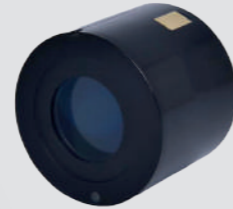

Image intensifier tube
 Phosphor: P45 (White)
 FOM min. 2000
 SNR min. 28
 E.B.I. max. 0,25µlx

DTNVS-14-LWC40

The DTNVS-14-LWC40 is a high performance configuration of the line of light weight Binoculars from ACTinBlack. Building on the technologies developed at ACTinBlack and enhancing the advanced electronics to provide an even more reliable tool for the operator.

The DTNVS combines lightweight materials and a low profile while folded to the helmet to reduce neck strain during extended missions. Manual gain and an increased strength of the system will give more options to the user. The DTNVS goggle has a full feature set with individual sideways ON/OFF for each eyepiece and Flip-Up ON/OFF when folded up preventing backslash on the helmet. To complete the DTNVS' features it incorporates built-in IR LED for close quarter missions with separate IR-ON indicator and low battery indicator in the field of view of both sides.

	No.	Pieces
DTNVS-14-LWC40	904136	

Norotos Lo-Sto (Black)

The Norotos Lo-Sto dovetail mount delivers an advanced platform equipped with Anti-Wobble engineering at only 4.8oz —enhancing stability while preventing eye fatigue—extending field use capacity in the process. Combining one hand adjustments designed with safe and easy tactile differentials alongside infinite adjustment capability further enhances comfort and versatility.

	No.	Pieces
Noroto Lo_Sto (Black)	904559

KEY FEATURES

- **OUTSTANDING IMAGE CLARITY**

Modern lightweight lenses enable a much better image clarity over traditional night vision lenses which often are based on designs form the 1980s. recognition.

- **INTUITIVE CONTROLS**

The whole system is controlled by one control knob which can be turned for manual gain or using the click function turn device on/off, activate IR LED and other functions. Thus providing an intuitive and easy to learn system for the operator.

- **PVS14 OPTICS FOR MAXIMUM COMPATIBILITY**

Utilizing PVS-14 style optics the operator has access to a variety of accessories and upgrade solutions such as magnifiers, recorder systems etc.

- **COMPACT, LIGHT AND RUGGED**

Minimizing the size to the essentials while increasing the strength using modern carbon fiber baserd materials, the DTNVS is the lightest and strongest 18mm IIT based night vision binocular.

- **COMBAT-PROVEN DURABILITY**

Robustly designed and field-tested so the most elite operators can count on it. (5,000+ DTNVS delivered/fielded by various military forces / law enforcement)

With regard to the data in this fact sheet:

These refer to the time of publication of this catalogue. Products are under continuous development. For this reason, the product may have undergone changes since publication of this document.

We reserve the right to make changes in design or shape as well as deviations in colour. The illustrations may also contain accessories and special equipment that are not part of the standard scope of supply. Colour deviations may occur due to technical reasons.
